Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450
Dear Sir:

In the Office Action mailed 07/26/2005, the examiner specified the following:
Specification: The disclosure is objected to because of missing information.
Claims: Claims 1-20 are provisionally rejected under judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-23 of US Patent No. 6,747,478.

In response, the Applicant has amended the paragraph with missing information. (please see attachment-A). Furthermore, Applicant herewith submits a terminal disclaimer and the appropriate filing fee of \$55 for a small business entity in response to the Office Action. The applicant believes that the above submission is fully responsive to all grounds of rejection set forth in the Office Action.

If for any reason the Examiner believes that a telephone conference would in any way expedite prosecution of the subject application, the Examiner is invited to telephone the Patent the Inventor Mr. Madurawe at (408) 737-8868 or (408) 431-5367.

Respectfully submitted,

Raminda U. Madurawe
